Finding scholarships is a tremendous challenge for students who need it most. Scholarship Universe improves fund utilization through adaptive student matching and a streamlined scholarship management process. This allows institutions to fund more students while putting an end to search fatigue.

Increase Enrollment and Retention by Removing the #1 Barrier for Students — Financial Uncertainty

- Decrease unspent funds: Instantly locate oneof-a-kind students who meet donor criteria for internal scholarships
- Award students faster: Customizable scoring and ranking templates accelerate internal reviews and awarding
- Fund more students with relevant and legitimate scholarships: Expand student access to scholarships through a vetted and continuously updated external database with over 17,000 scholarship opportunities
